## RESIDENTIAL APPLICATION FOR MASHRABIYA PANELS

NID UAE decorative panels can be used in multiple ways and locations indoor or outdoor at your home, work place or Commercial buildings. There are many options to choose from internal or external screens from thickness, designs and finishes. We always welcome your personal vision or ideas to make a custom piece or design to fit your need and location. Our Residential or commercial decorative panels can be selected from our collection and we offer shipping to locations worldwide.

#### FENCE PRIVACY DECORATIVE SCREENS

Fences gets more attractive to add privacy with NID UAE screens adding up lower sound effect and an eye-catching outlook to your exterior walls, Durable no maintenance required.

#### CARPORT & CANOPY DECORATIVE SCREENS

Not just shades its creative and dynamic in shifting the shadows as light moves throughout the day. Make your carport or garden canopy to stand out with architectural screens.

#### WINDOWS & GLAZING DECORATIVE SCREENS

Decorative panels provide imaginative shadow and light pattern throughout summers adding up more privacy and a permanent way than regular curtains.

#### CLADDING DECORATIVE SCREEN

Bored with plain walls bring your walls to life with our decorative cladding with easy to clean. These panels are designed to withstand weather elements such as rain, heat, snow and reduce high wind impact.

#### BALCONY HANDRAIL DECORATIVE SCREENS

Our decorative panels can be used indoor or outdoor into railings on stairs or balconies to make plain railing more beautiful and personalized. These panels can keep pets, children and others from falling and creating more safer place with elegance.

## COMMERCIAL APPLICATIONS FOR PRIVACY / DECORATIVE SCREEN

NID UAE custom designed panels can be used in a variety of spaces for your commercial property. Our products are available in a variety of finishes and shades. We also work with designers to create something tailor made as per their specification.

## Usage of Panels

- Wall Cladding
- Window screens
- Carports
- Façade Cladding
- Car Park Shades
- Boundary walls
- AC grills
- Balcony
- Handrails
- Outdoor Sitting
- Terraces

## Material

Our panels are made from several different metals, Aluminium, Copper, Brass, Stainless Steel etc.

Visit our Gallery pages or project pages to see our some of the jobs executed.

### MATERIAL SIZES AVAILABLE

Aluminum	1200 x 1200mm, 1500 x 1500mm, 1200 x 2400mm, 1500 x 3000mm
Stainless Steel	1200 x 1200mm, 1200 x 2400mm
Copper & Brass	1200 x 1200mm, 1200 x 2400mm
MDF	1200 x 1200mm, 1500 x 1500mm, 1200 x 2400mm, 1500 x 3000mm
MR MDF	1200 x 1200mm, 1200 x 2400mm
Plywood	1200 x 1200mm, 1200 x 2400mm
Acrylic	1200 x 1800mm, 1200 x 2400mm
Composite Panels	1200 x 2400mm,
Pvc Forex	1200 x 2400mm,

Above given sizes are standard sheet sizes, customized sizes are also available on request

## TECHNICAL SPECIFICATION

### MDF

Medium Density Fiberboard is an engineered wood panel product. It is specially manufactured for furniture & joinery works. The overall strength & smooth surface of MDF make it suitable for painting to achieve high quality finishing.

Mechanical	Unit	Thk
Density	kg/ m <sup>3</sup>	700-740
Density tolerance	±0.2	>12-19
Weight	Kg/Sheet	32-39
Internal Bending strength	Ave	2300
Thickness swelling rate	%Max	10
Moisture Content		6-6.5%
Static bending Strength	N/ mm <sup>2</sup> Ave	20
Modulus Of Elasticity	N/ mm <sup>2</sup> Ave	2100
Screw Holding Strength	N/ mm <sup>2</sup> Ave	1000

All tests are carried out under standard and optimum conditions  
Above technical data is provided by supplier NID UAE doesn't hold any responsibility of inaccuracy of data.

### MR-MDF

Moisture resistance MDF is an ideal substrate for any areas where moisture and high humidity is present. Its main characteristics produced from melamine resin system are an increased in dimensional stability or lower thickness swelling.

Mechanical	Unit	Thk
Density	kg/ m <sup>3</sup>	700-740
Density tolerance	±0.2	>12-19
Weight	Kg/Sheet	32-39
Internal Bending strength	Ave	2300
Thickness swelling rate	%Max	7
Moisture Content		5-8%
Static bending Strength	N/ mm <sup>2</sup> Ave	24
Modulus Of Elasticity	N/ mm <sup>2</sup> Ave	2400
Screw Holding Strength	N/ mm <sup>2</sup> Ave	1050

All tests are carried out under standard and optimum conditions  
Above technical data is provided by supplier NID UAE doesn't hold any responsibility of inaccuracy of data.

### ALUMINIUM ALLOY 1100-H14

Aluminum Alloy 1100 is the most popular grade of aluminum for general purpose sheet metal works where moderate strength is the requirement. AA 1100 is also known for its excellent corrosion resistance, high ductility & reflective finish.

MECHANICAL PROPERTIES	Thk
PROOF STRESS	75 min Mpa
Tensile strength	110-125MPa
Elongation at	50mm 5 min%
Hardness Brinell	32 HB
General Physical properties	
Density	2.71g/cm <sup>3</sup>
Melting point	643-657 C
Thermal Expansion	23.6 x 10/k
Modulus Of elasticity	69 GPa.
Thermal Conductivity	222 W/m.k
Electrical Resistivity	0.029 z 10.m
CHEMICAL COMPOSITION	
Silicon + iron (Si+Fe)	1.0
Copper (CU)	0.05-0.20
Manganese (Mn)	0.0-0.05
Zinc (Zn)	0.0-0.10
Others (total)	0.15
Others (Each)	0.05
Aluminum (AL)	Balance

## UNDERSTANDING YOUR REQUIREMENTS

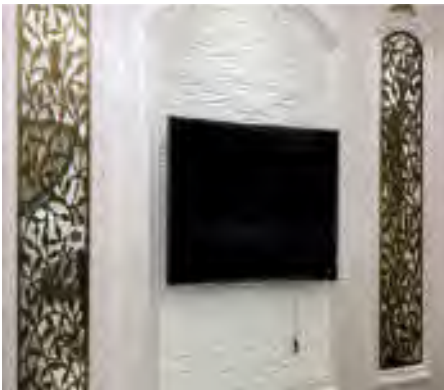

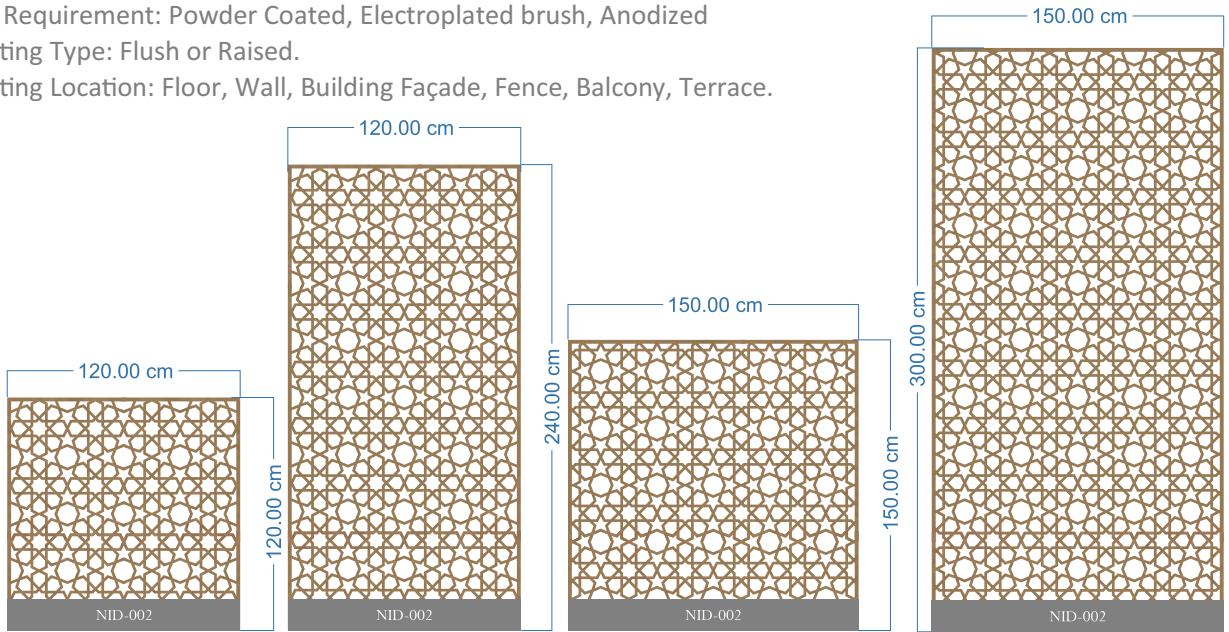

When designing your next architectural element kindly consider the following in order to optimize your efforts.

- Indoor or outdoor location
- Weight consideration
- Material type: Aluminum, Stainless Steel, Copper, Brass, MDF, Plywood.
- Material Thickness
- Overall Size
- Type of fitting required
- Number of Pieces
- Finish Requirement: Powder Coated, Electroplated brush, Anodized
- Mounting Type: Flush or Raised.
- Mounting Location: Floor, Wall, Building Façade, Fence, Balcony, Terrace.

Makani 4847210361

LOCATION

### DECORATIVE SCREEN FINISHES

#### DECO / PU PAINTING

For MDF mashrabiyas best method of providing this is through manual spraying which is available in multitude of colors. we recommend RAL colors. RAL is a European color matching system which defines colors for paint & Coatings.

#### POWDER COATING

Aluminum is a light weight metal that invariably requires color. The best method of providing this is through powder coating which is available in multitude of colors. We recommend RAL colors. RAL is a European color matching system which defines colors for paint & Coatings. RAL Classic is the most famous and widely used system

RAL 9001	RAL 9002	RAL 9003
RAL 9004	RAL 9005	RAL 9006
RAL 9007	RAL 9010	RAL 9011
RAL 9016	RAL 9017	RAL 9018
RAL 9022	RAL 9023	

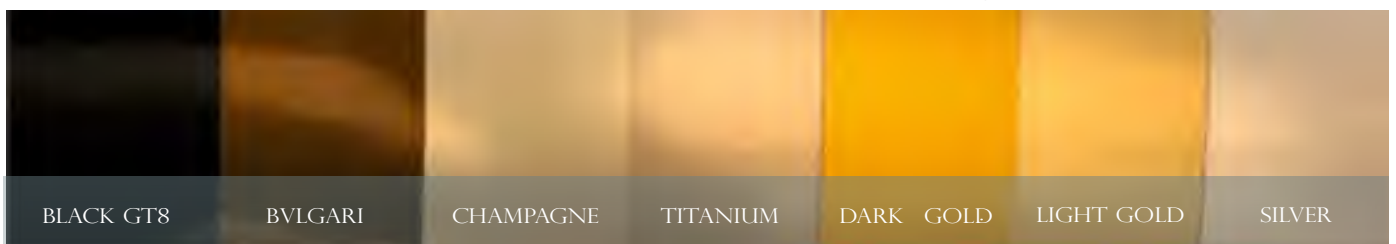

#### GOLD, BRASS, BRONZE, COPPER, NICKEL PLATING

Our decorative screens can be finished in Brush, Satin or polished finish depending on client's requirement & recommended for indoor use only. Electro polishing has many finishing, Gold plating, chrome Plating, Antique brass/bronze

#### ANODIZING

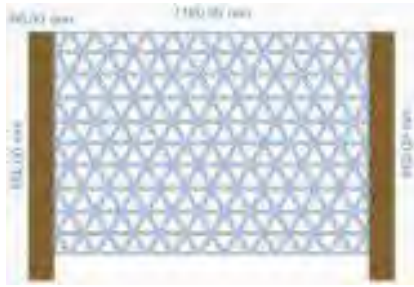

Anodizing is a method for changing the surface chemistry of metal. It protects against corrosion, enhances aesthetic qualities, resists scratches and is one of the most durable surface finishes

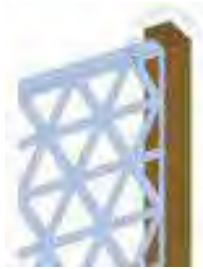

FIXING & INSTALLATION OF DECORATIVE PANELS

WOODEN POST FIXING

Recommended fixing and installation details when choosing pressure impregnated wood posts Its recommended that posts to be dug 80 to 90cm down for best stability. Ready concrete can be used as well or Pole feet from Steel are recommended for better stability. Under special conditions where high winds olose ground is the case deeper than advised is better to be opted.

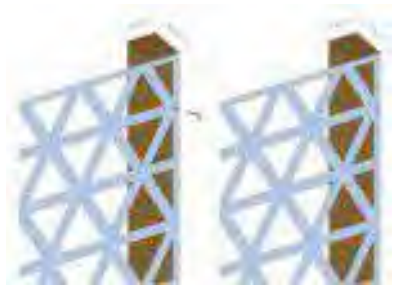

FRONT ELEVATION

CLOSE UP.

RARE FIXING DETAIL.

OVERLAPPED FITTING

STEEL POST FOR MOUNTING

Recommended on foundations, wooden terrace or balcony slab if digging the posts in the ground is not a option than mounting above the ground Steel Hot galvanized post are best, setup your post and simply fasten with bolts for mounting on wooden terrace or concrete. Fixing and installation can be done very easily.

FRONT ELEVATION

CLOSE UP.

RARE FIXING DETAIL.

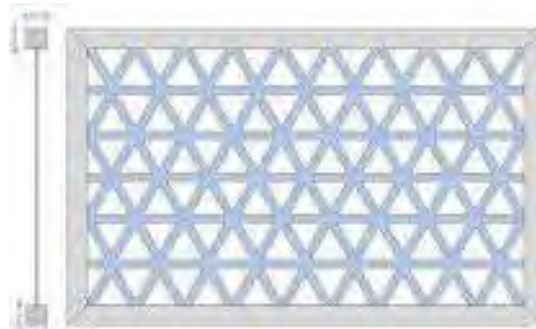

OVERLAPPED FITTING

FIXED FRAMED OPTION

Decorative screens can be welded and fabricated on customer request using different profile options depending on the requirement. Fixed panels either can be hanged fixed directly to wall or used as sliding doors or windows.

FRONT ELEVATION

CROSS SECTION

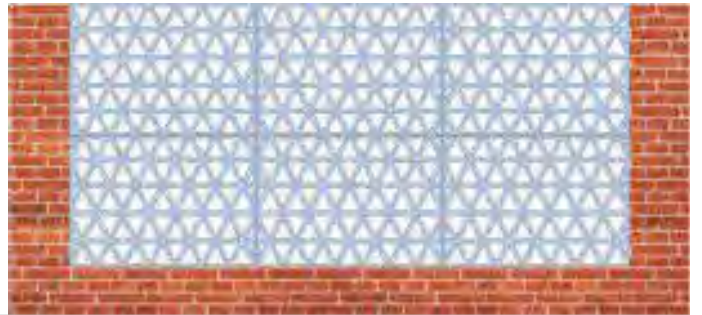

BRICK OR CONCRETE STRUCTURE

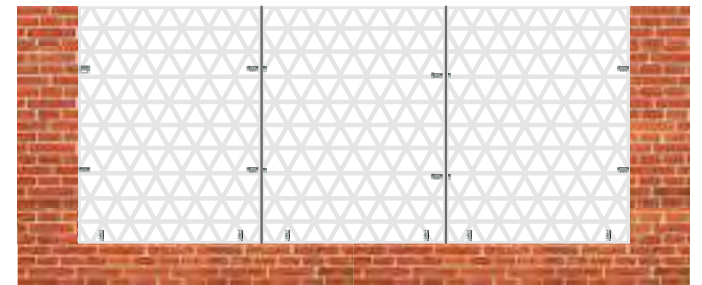

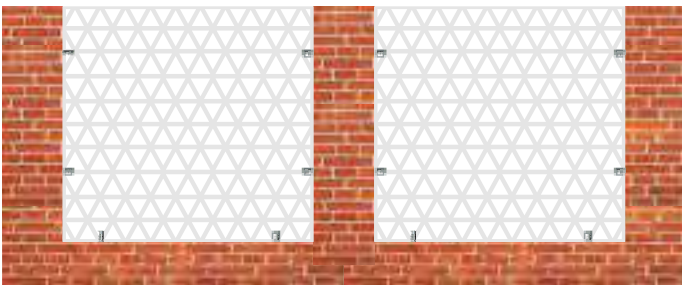

Decorative panels are multipurpose use and application can be done on my places, Existing Brick walls or Concrete posts, aluminum panels with minimum maintenance and stand outlook can easily be fixed ashown in below options.

ALIGNMENT /ORIENTATION

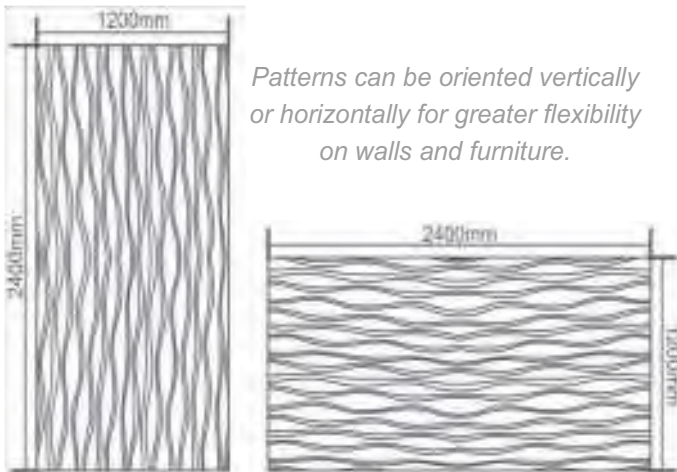

INSTALLATION INSTRUCTIONS

There are 2 types of installation recommended Finished Product installation where panels are delivered painted as per client selected color where as 2<sup>nd</sup> option is raw panels where client opted to finish the product by there self. In both cases flexibility of pattern orientation allows you to achieve the desired look in any project. Each panel size is 1200 x 2400 x 18mm.

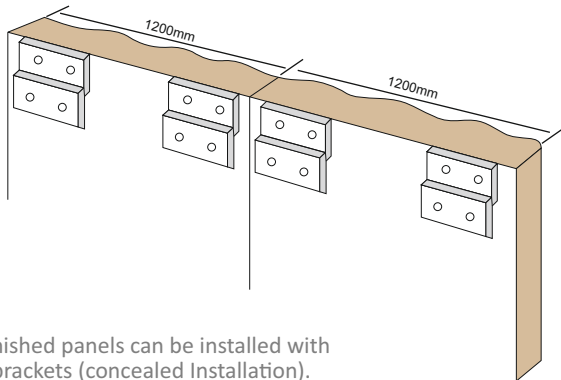

Makani 4847210361

LOCATION

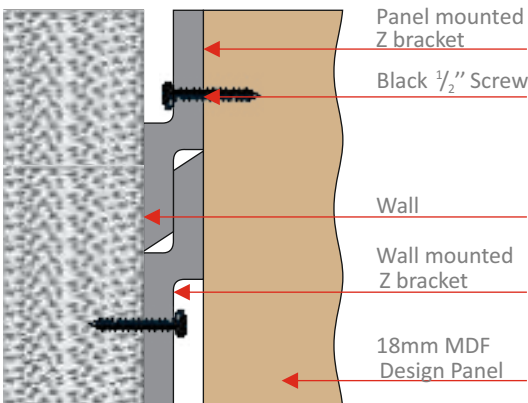

Patterns can be oriented vertically or horizontally for greater flexibility on walls and furniture.

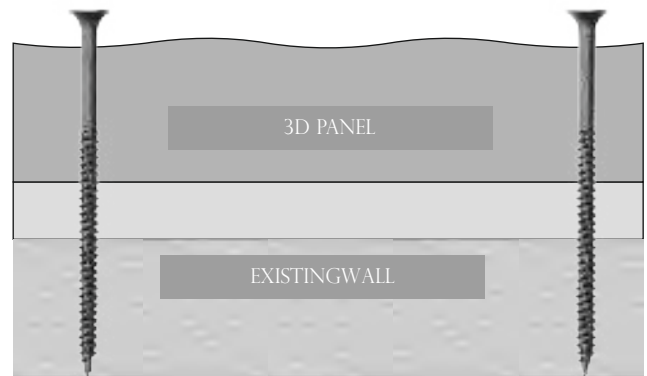

1<sup>ST</sup> OPTION FIXING WITH ZCLIP

Finished panels can be installed with Z brackets (concealed Installation). As per diagram showing the installation procedure

2<sup>ND</sup> OPTION DIRECT FIXING

Option 1

Z clips are an effective installation technique it is recommended to run full length/width of the panel so as to provide support for the entire panel.

Option 2

Direct screwing panels to wall. It is recommended silicon sealant to be used as well for better stability of panels.
